Cyclamen Program Information

Product ships February 28, 2022- February 24, 2023 (except prefinished pots July-December 2022).

Every cyclamen liner and prefinished pot that leaves Wagner's carries with it the evidence of our dedication to producing top quality products to help your season get a great start. Cyclamen are a particularly special due to the long crop time and the very specialized culture required to produce healthy plants. We ship the liners and prefinished pots to arrive in good condition on the date you expect. We look forward to helping you achieve your best crop possible. In addition to our cyclamen liners, Wagner's produces prefinished cyclamen in four inch pots. Compared to using liners, the use of prefinished cyclamen will reduce crop time by 50% or more. For standard cyclamen, growers transplant the prefinished pots into six inch pots upon arrival. After approximately eight weeks, a beautiful plant has filled the pot and is showing color.
